Our Services

1. CCTV System

Intelligent surveillance solutions that provide continuous monitoring, recording, and enhanced security for any environment.

2. Access Control System

Advanced entry management solutions that secure facilities while enabling convenient, controlled access.

3. Fire Alarm System

Dependable detection and alert systems designed to ensure rapid response and safeguard lives and assets.

4. Audio/Video Door Entry System

Secure and seamless entry communication that enhances safety and convenience for residents and businesses.

5. SMATV / IPTV System

Comprehensive media distribution platforms delivering high-quality TV and digital content across multiple outlets.

6. Hotel Key Card System

Smart, reliable room access solutions tailored for the hospitality industry to improve security and guest experience.

7. Digital Signage System

Dynamic display solutions that engage audiences, share real-time updates, and deliver impactful visual communication.

8. Structured Cabling

Robust and scalable cabling infrastructure that ensures seamless connectivity and supports future technology growth.

9. Parking Control System

Efficient vehicle management systems that streamline parking operations and improve security.

10. Home Automation System

Smart living solutions that integrate lighting, climate, security, and entertainment for ultimate convenience.

11. Nurse Call System

Patient-to-nurse communication for quick response and better care.

12. Room Management System

Centralized control of lighting, climate, and access for comfort and efficiency.

13. PA/Evacuation System

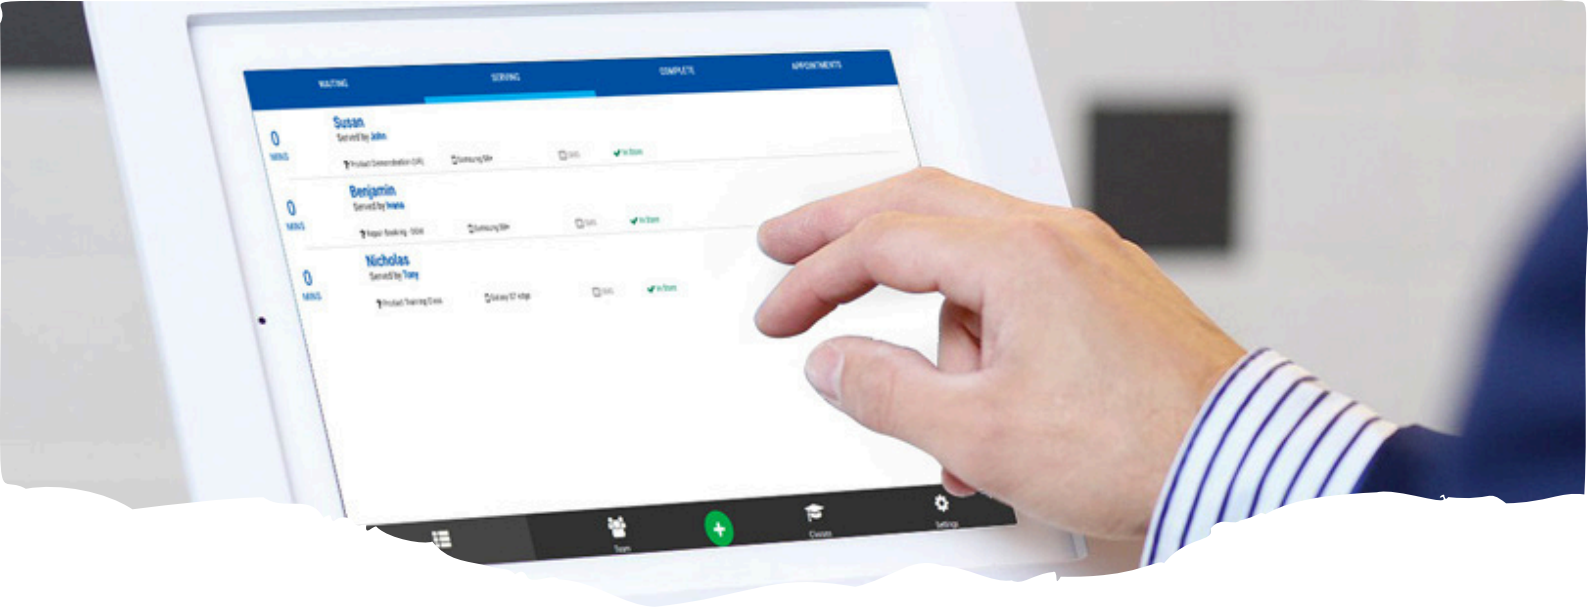

Clear announcements and emergency alerts for safe, reliable communication.

14. Master Clock System

Facility-wide synchronized timekeeping for schools, hospitals, and industries.

15. Information & Communication System

Integrated intercom, IP telephony, and conferencing for seamless connectivity.

16. Queue Management System

Smart solutions to streamline waiting lines and improve service flow.
